We are a leading dairy company in Türkiye, established in 1977. Our factories are located in Antalya City and have been certified by ISO2200, BRC and HELAL. We have more than 1000 employees with total 108.000 m² (indoor 47.000 m²) production site. The raw milk processing capacity is 850-1200 tons/day. With the solar power panels on our roofs, we generate electricity with no air or carbon pollution. Our products are sold in several countries under well-known brand names such as YORUKOGLU and Alya.

To this day our purpose remains the same, to enrich people's lives through the nature tates of YORUKOGLU dairy products.

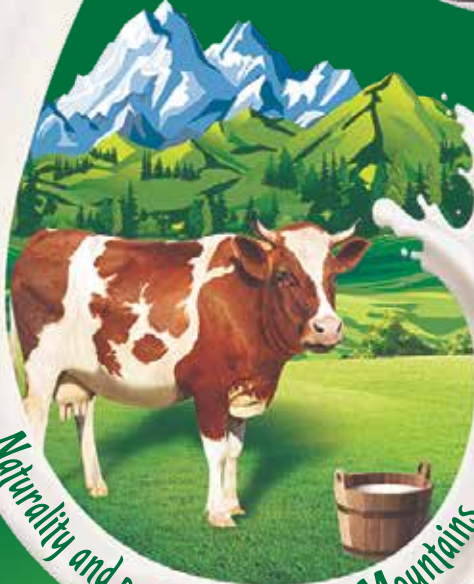

The most natural recipe of taste

Yörükoğlu has a history of producing the highest quality products. The tireless work we do, and the strict standards we follow, is all to bring our customers the best tasting, safest dairy products. Our goal will always be to provide safe and pure dairy products to our customers. We have exhaustive quality and compliance standards we meet to ensure you have peace of mind that you are choosing a reputable and conscientious food supplier.

Yörükoğlu®

Naturality and purity from Taurus Mountains...

Carrying naturality is a matter of expertness.

Yörükoğlu dotes on Taurus' peerless tastes and makes no compromises on quality in order to protect its delicious milks. By its special frigorific systems, Yörükoğlu develops and consummates the distribution network for delivering its unique tastes in the earliest freshness.

Advanced technology for natural products!

In a total of 47.000 m² modern and technological Yörükoğlu facilities, an environmentally-friendly and consumer-oriented operating principle is implemented. The delicious Taurus milk is pasteurized to preserve its freshness and nutritional properties. Then, it is offered to you in a hygienic and safe packaging.
